

Computer Space is a non-commercial international computer art forum.

With every passing year the forum becomes more and more popular. With twenty three editions in a row behind its back and more than 8000 participants (firms, studios or individual persons) from different countries from all over the world, today "Computer Space" is one of the biggest and most significant events for computer arts in south-east Europe.

Some of the participants in "Computer Space" during the years were:

- [Platige Studio](#) (*Poland*) – Academy award nominee
- [Studio AKA](#) (*Great Britain*) – Pixar award winner
- [Miralab](#) (*Switzerland*) – world-famous computer graphics and animation center
- [Maga Animation Studio](#) (*Italy*)
- **ART + COM** (*Germany*)
- **Astra Net** - famous international satellite communication company
- [Ars Electronica Center Linz](#) (*Austria*) – digital art and media center
- [IRCAM](#) (*France*) - Institute for music/acoustic research and coordination
- [Academy of Media Art Cologne](#) (*Germany*)
- [ZKM Karlsruhe](#) (*Germany*)
- [European Media Art Festival](#) (*Germany*)

and many, many more.

"Computer Space" seeks to show the modern trends in the field of computer arts. The forum is divided in two parts – competition and festival.
